RE: EPA Funding Document

Dear (b) (6),

(b) (6)

To date, funding has been provided for assessment activities and to provide water treatment systems on (b) (6).

The enclosed document provides funding for EPA to perform a removal action (b) (6) to remove and properly dispose of hazardous substances. Actions which have been approved for funding can be found on pages 15-17 of the document.

I will be meeting with EPA's local and Commonwealth counterparts on June 11 to discuss a plan to perform these activities.

(b) (6)

(b) (6), I would like to begin cleanup activities on July 10, 2019. The cleanup activities will involve removal of drums, cylinders, and small containers, radioactive deck markers, PCB-containing equipment, and some soil.

Please note that this funding request also authorizes the installation of water treatment systems (water softener and granulated activated carbon) on residential wells which have contamination above the EPA levels for public drinking water systems. (b) (6)
(b) (6) This installation is optional, and would be performed at no cost to you.

As you read through the document, you will likely have questions. I am available to meet with you in person anytime on June 4-6, or during the week of June 10 (except from 1-3 pm on 6/11). If you prefer to discuss your questions by telephone, I can be reached at 804-337-3049. Feel free to contact me during the day or in the evening.

(b) (6)

(b) (6)

Please feel free to reach out to me with questions or concerns at any time. Thank you for your cooperation and your kindness.

Sincerely

Christine Wagner, OSC
EPA Region III
